Mr Lim Eng Kong
Mr Lim teaches Geography and also serves as the ArtScience Mentor at SJI. He has the enviable position of also being the teacher in charge of Canoeing.

"Everybody goes through different chapters in their lives. Through teaching, I am very privileged to be given the opportunity where i can be one of the many characters that can help to shape and mould the character of the child in his life story."

Mrs Vivian Tan
Mrs Tan is the HOD of Arts in SJI. She teaches Art and Design Thinking. She has nurtured many young talented Josephians, bringing out the best in their artistic qualities.

"Although I have taught Art for many years, I find that there are still so much more I can learn about the art of teaching Art... ways in which I can help my students learn the vital modes of seeing, imagining, inventing, and thinking. I believe that those who have learnt the lessons of the arts well will be prepared for the future."

Mr Mohamed Tahir
Mr Tahir is the HOD for PE and CCA. He teaches PE and assists the Asst Principal to oversee the CCA programme.

“The boys remind me of myself. Teaching gives me an opportunity to redeem myself by guiding my students to aim high and take the straight and narrow path. Unlike my experience, I hope to be able to teach all my students about the pitfalls and dangers of life, without having to experience them first hand. I only hope that someday my students will say that I had made a positive difference in their lives”. 

Ms Elisa Tan
Ms Tan teaches Literature and English, Personal and Social Education, and Design Thinking. She was a runner and competitive rock climber in her schooling years and continues her involvement with sports as one of the teachers in charge of the SJI Athletics team.

"As a teacher, satisfaction comes from helping my students develop their talents and guiding them to work towards what they are truly passionate about. To quote Emerson: To be yourself in a world that is constantly trying to make you something else is the greatest accomplishment.”
